# Experience the Atlanta Tables Difference

**L**ive Edge Furniture preserves the inherent beauty of the wood. It's unique lines are natural and the table brings a breath of fresh air into an unvaried environment. A Live Edge Table is a means of coming together and collaborating on a shared project, it is activating and stimulating. You will never get bored looking at it, and it is a source of inspiration.

**R**ather than unifying the wood to one stringent appearance, we work with the natural knots, holes and edges. You can add additional visual interest, by choosing to incorporate more colors, for example from your corporate logo.

**E**poxy Resin

**E**poxy Resins offer a great way to not only fill voids in the wood, but also pull in colors from the surrounding environment. Most often, the table is the center piece of the room, the point where people gather. Yet, it is not stealing the show, but encourages a mindset of openness and creativity.

# Desks

## Materials

Choose from our premium selection of wood slabs from our network of approved, high-quality suppliers in the Atlanta area. Pecan, Black Walnut, Red Cedar, White Oak and Red Oak, Maple, and more! Make your office stand out with a custom live edge desk setup.
