

# atlanta custom tables

Do you want your space to be inviting, nurturing conversations and strengthen good relationships?

**Welcome to Atlanta Custom Tables!**

People gather around the table for holidays, dinner, game nights and more.

# custom live edge tables

Experience the Atlanta Tables Difference!

We want you to have the table of your dreams: in size, type of wood, shape, finish, and height

To meet that goal, we will put all our experience, skills, tools and materials to work for you!

## What is "Live Edge"?

Live Edge Furniture preserves the inherent beauty of the wood. It's unique lines are natural and the table brings a breath of fresh air into an unvaried environment. A Live Edge Table is a means of coming together and collaborating on a shared project, it is activating and stimulating. You will never get bored looking at it, and it is a source of inspiration.

Rather than unifying the wood to one stringent appearance, we work with the natural knots, holes and edges. You can add additional visual interest, by choosing to incorporate more colors, for example from your corporate logo.

## Ecopoxy Epoxy Resin

Epoxy Resins offer a great way to not only fill voids in the wood, but also pull in colors from the surrounding environment. Most often, the table is the center piece of the room, the point where people gather. Yet, it is not stealing the show, but encourages a mindset of openness and creativity.

"I was looking for my dream table for a loooooong time. There had always been something in my mind, but I never found it. You guys brought it to life and I love it!"
