THE LIVE EDGE

Difference

Why purchase furniture with perfectly straight cut edges when you can have a one-of-a-kind Live Edge piece that preserves the inherent beauty of the wood? Live edge lines are natural bringing a breath of fresh air into an unvaried environment.

Or turned out?

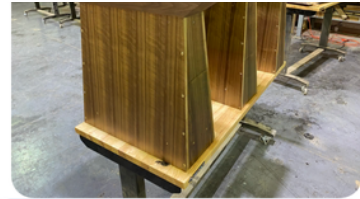

I think turned is is better

Turned in?

Yes

Okay, excellent! Will make it happen.

Per-Assembled legs getting final Poly coat

Oh wow!! It's looking great :) Thank you for these pictures! I can come out Wednesday next week if it's ready then. Tuesday I'm booked up. Thank you!

That would be great! We will make plans for Wednesday. If you know any additional details on

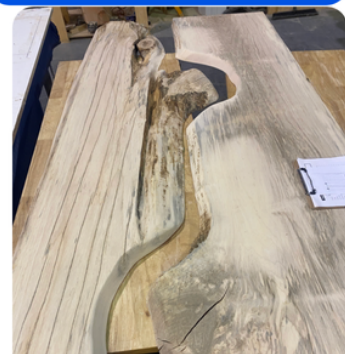

The other desks we sold with this slab, the part straight edge is the back. But I wanted to double check with you

Oh it's so pretty!

Do u mean straight edge is where you sit or under the shelf?

Straight edge faves the wall, where the shelf would be mounted

We finally had a chance to get some of the initial cut-out done like we had discussed. We still have the far edge to do anything with on the "left side", but this river looks pretty symmetrical and got to keep all the figured wood. Thoughts?

You'll receive pictures and updates throughout your project!
